

TIME OF THE DINOSAURS

AN EXHIBITION THAT TAKES YOU
FROM WHEN TIME BEGAN TO THE
CATACLYSM THAT ANNIHILATED THE
MIGHTIEST CREATURES EVER TO
HAVE ROAMED THE EARTH.

RRRROOOOORR

MB PRESENTS

TRAVEL 65 MILLION YEARS BACK IN TIME!

Time of the Dinosaurs takes a totally new approach to the concept of dinosaur exhibitions. It has a clear, simple, ever-present story and timeline. Visitors understand from the beginning that they are about to enter a time loop and every zone, every panel, every movie across the exhibition follows the concept that is easy to follow for everyone, from age 3 to 103.

The animated dinosaurs are brand new, thus assuring the best possible and most thrilling dinosaur experience. The whole exhibition bathes in mystery and builds on the excitement of the fans.

A WALK AMONG THE GIANTS!

Technology enables the giant creatures to move and roar. Lots of different species are being presented to the public, including Triceratops, Brachiosaurus and the famous Tyrannosaurus Rex. The sets for these impressive specimens use all available technology and reflect the environment in which they evolved millions of years ago. Visitors are fully immersed in the vanished world of the great lizards.

FROM THE BIG BANG TO THE BIG BOOM

Curious?

WATCH THE
TEASER VIDEO

Visitors can enjoy a number of fun activities: take a family picture in the customized photo booth or hiding in a dinosaur egg or do the Dino Dance.

In addition to these activities, the exhibition also presents a new virtual reality experience, specifically created for Time of the Dinosaurs, enabling young adventurers to experience a flight on the back of a dinosaur and observe the ecosystem in which these giants evolved.
